

PROFESSIONAL EXPERIENCE

Senior Implementation Facilitator Jul '24 - Present

McKinsey & Company

Leading Chemical Manufacturer | Design and Implementation

- Designed an e-auction sourcing strategy - led supplier identification, RFQ analysis, mitigated single-OEM dependency risks in MRO by proposing alternate suppliers
- Managed 9+ initiatives across Logistics, MRO, and Warehousing ; delivered ~₹4 Cr in savings within 2 months through structured daily tracking and stakeholder-aligned execution

Leading 3PL & Logistics Company | Diagnosis and Design

- Led the Warehousing workstream (~₹687 Cr spend base) - conducted Gemba walks, stakeholder interviews, time-motion studies at 2 sites to diagnose process bottlenecks and automation gaps
- Structured a ₹28 Cr improvement pipeline spanning automation, picking efficiency, and labor cost optimization; presented recommendations to Chairman and MD

Leading Defence Manufacturer | Diagnosis

- Conducted 10+ stakeholder interviews and embedded in daily shopfloor huddles, production reviews, and planning meetings to isolate bottlenecks and prioritize improvement levers
- Identified 20+ initiatives across process discipline, planning, and supplier management; built automated dashboards cutting report prep from hours to minutes

Leading Automotive OEM | Strategy

- Built a risk prioritization model across 4,000+ components to flag validation risks early and anchor launch planning across 4 new platforms
- Designed a part substitution strategy for 5+ long-lead components, protecting SOP timelines and unlocking ₹60+ Cr in cost savings

Leading Government Sector Bank | Design, Implementation and Scale-up

- Designed and piloted the bank's first SME Leads campaign across 150+ branches (~₹80 Cr leads logged, ~₹20 Cr disbursed); scaled to 800+ branches with a repeatable playbook, driving ₹50-70 Cr in monthly disburseals
- Redesigned the auto-renewal process through 3-year delinquency analysis, eligibility relaxation for low-risk cohorts, and approval authority rewiring, lifting auto-renewals by ~10%

Leading NBFC | Discovery and Workshop Design

- Synthesized insights from 6 FGDs across 4 cities into 6 actionable ideation themes, each backed by industry factpacks and competitive benchmarks
- Designed and facilitated a CXO Collision Workshop on app engagement strategy for ~30 senior stakeholders, driving alignment and a directional product roadmap

Senior Executive - Business Excellence Jul '18 - Jun '22

Mahindra Logistics Ltd.

- Designed and executed "Idea Network," a company-wide cost savings initiative built on Six Sigma methodology; acted as liaison between CXOs, Business Heads, and Vertical Coordinators to drive adoption and impact
- Launched PULSE (Productivity Linked Standardised Environment) across 7 business verticals, standardizing productivity frameworks and embedding operational discipline at scale
- Identified and created 12+ business opportunities through emerging technology solutions - IoT, AI, UAV, AR-VR and developed the Automation Fund framework, managing ₹10 Cr for implementation of automation initiatives
- Delivered AR-VR implementation with 100% success rate for a multinational e-commerce client (received Bravo Card); awarded Star Performer for project and database management improving customer satisfaction
- Won Gold Award at CII Championships Trophy for Industry 4.0 for low-cost automation and digitization projects
